

HAMPSHIRE GUNDOG 30th August 2026
NOVA SCOTIA DUCK TOLLING RETRIEVERS

P (2, 0) 1. Lashly TOLLISTY THRYMHEIM OF CITANABEL D well developed for age with an appealing outline, good head & eyes, friendly & cheerful expression, firm neck into well placed shoulders, straight forelegs & neat feet, good depth of chest & spring of rib, level backline, correct bend of stifle, tidy mover away & back & strode out around the ring with happy attitude. BP 2. Borrett MATALATU MICHELIN B pretty head with tapering muzzle & correct ear set, liked her inquisitive expression, she was really watching everything that was going on at what I gathered was her first show, good reach of neck & shoulder placement, level topline, firm hindquarters, moved well.

SY (4,0) 1. Cross & Parfett TOLLPEPPER DAWNS LIGHT B stood to show her symmetry & level topline, wedge shaped head with sweet expression, well-set ears, clean neck well set into good shoulders, correct bend of stifle, straight legs, good feet with arched toes, at only 17 mths old she's eye catching on the move, has even strides with reach & drive & was true all ways. BOB 2. Rice TIAMARIA BELLA ROSA B 17 mths appreciated her compact outline, pretty head well shaped eyes & expressive use of ears, firm neck of moderate length, decent forehand construction, correct spring of rib & depth for age, short coupled, firm rear quarters. Moved truly in all directions with good tail carriage. 3. Rice TIAMARIA TOASTED MARSHMALO

PG (4,0) 1. TOLLPEPPER DAWNS LIGHT 2. Lashly TOLLISTY BLOW YOUR MIND AT CITANABEL JW Mature B in good coat with appealing balance. Lovely head with amber well-shaped eyes, strong medium neck into laid-back shoulders, level backline, correct bend of stifle, pleasing bone & feet, liked her movement best in profile, she went around positively with enthusiasm. RBOB. 3. TIAMARIA BELLA ROSA

O (2,0) 1. Fuard TOLLELKIN BAY OF ICE D freestood to show his overall balance, he made an appealing picture & I loved his bond with his handler. Good head, strong moderate neck, well angulated forehand, deep chest, short coupled & firm rear with hind angulation to match front. Given that he's nearly 11 yrs I forgave the fact that he occasionally moved a shade uneven behind as he then gathered himself together & moved correctly with reach in front. 2. Street SCALPSIE HANDSOME MACAROON D for balance I'd prefer a bit more leg on this 2 yr old who, despite not entirely cooperating with his handler today, had a personality with lots of charm. In full coat, masculine head with gentle expression, strong moderate neck, decent shoulders, deep chest, firm hindquarters & his profile movement showed drive.
